Copy 6 of 6

17 June 1969

**MEMORANDUM FOR:** Contracts Management Division/COMPT/OSA

**ATTENTION:** [redacted]

**SUBJECT:** IRIS II Briefing Material

1. As a result of our telecon of 16 June 1969, I am forwarding to you a copy of a briefing given by ITEK personnel to [redacted] office), [redacted] and I in the SSD/R&D office on 11 June 1969.

2. The material contained in the attached document was presented by the following ITEK personnel - [redacted]. As you will note, it contains an improvement program for the IRIS II in such areas as Bi-Color, Vibration Isolation System, Automatic Focus Control and a 30" EFL Lens System for the IRIS II. In addition, it also gives a unit cost estimate for flight testing each of the above improvements.

3. No commitments or decisions were given to ITEK by the OSA reps or [redacted]. On 13 June 1969, the undersigned did indicate to [redacted], ITEK, that if we decided to participate in any of these improvements, we would probably ask first for a vibration isolation system proposal and secondly, for automatic focus control. However, before we would seriously consider an AFC system, we would require more Q-Day environmental data to be collected through the instrumentation package.
